

Save the Date!

At the forefront of patient safety

You are invited to attend an international symposium that expands your knowledge of human factors/ergonomics applied to health-care devices, environments, and end-users!

- **Get insights on the latest science and best practices**
- **Understand innovations in the safety of health-care providers and patients**
- **Sharpen the focus of your HF/E initiatives**
- **Improve your regulatory approaches**

The Health-Care Symposium offers leading human factors experts, pharmaceutical and medical device companies, biomedical engineers, health-care providers, FDA representatives, and patient safety researchers the opportunity to share knowledge and find solutions for issues and challenges in health-care.

The symposium is organized into four program tracks:

- **Consumer and Clinical Health-Care IT**
- **Health-Care Environments**
- **Medical and Drug-Delivery Devices**
- **Patient Safety Research and Initiatives**

It also features workshops, presentations, and interactive posters in a format that allows for interaction and exchange among participants and presenters.
