

Human Factors and Ergonomics Society

Build a Successful Career Path with HFES

Become a part of a vibrant global community of engineers, psychologists, designers, and other professionals conducting research and applying it to improve the human-system interface. The Human Factors and Ergonomics Society provides you the tools, resources, and global network you need throughout your career.

Your Resources

Expand your professional goals with access to publications, products, and services, and benefit from HFES advocacy efforts to increase the field's global impact.

A body of HFES literature

Get access to scholarly publications covering the latest research and application covering a broad range of HF/E topics. More than 21,000 articles and abstracts are available from

- *Human Factors*
- *Ergonomics in Design*
- *Journal of Cognitive Engineering and Decision Making*
- *Annual Meeting and Health Care Symposium Proceedings*
- *Reviews of Human Factors and Ergonomics*

Conferences and symposia

Immerse yourself in gatherings that feature new discoveries and breakthroughs in the field of HF/E. Expand your opportunities to partner with colleagues from around the world. World-class research, applications, and cutting-edge topics are the focus of presentations at

- International Annual Meeting
- International Symposium on Human Factors and Ergonomics in Health Care
- ErgoX Symposium

Your Community

Connect with the best minds in academia, industry, government and military, consultants, and build relationships with colleagues who share your interests to stay current, share experiences, and broaden your work-related and personal horizons.

- 24 Technical groups
- Local and student chapters
- Early career networking
- Mentor-mentee programs

Job search tools

Whether you are planning a career move, getting started in the field, or looking to hire an HF/E professional for your organization, take advantage of the members-only Online and On-Site Career Center.

The professional recognition you deserve

Get recognized and rewarded for advancing the HF/E field in any of its 24 areas of focus. HFES identifies and rewards achievements in academia, industry, and student sectors through

- Society-wide award programs
- Fellows designation
- Technical group awards

Our Mission

To promote the discovery and exchange of knowledge concerning the characteristics of human beings that are applicable to the design of systems and devices of all kinds.
