

SAVE THE DATE!

Human Factors and Ergonomics in Health Care

MARCH 24–27, 2019 | HILTON CHICAGO | CHICAGO, ILLINOIS

Experience the difference!

Expand your knowledge of human factors/ergonomics applied to health-care devices, environments, and end-users in a format that allows for interaction and exchange of knowledge among participants and presenters.

- **Get insights on the latest science and best practices**
- **Understand innovations in the safety of health-care providers and patients**
- **Sharpen the focus of your HF/E initiatives**
- **Improve your regulatory approaches**

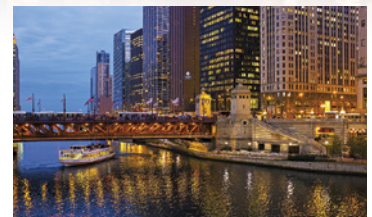

The Health-Care Symposium offers leading human factors experts, pharmaceutical and medical device companies, biomedical engineers, health-care providers, FDA representatives, and patient safety researchers the opportunity to discuss real-world examples and experiences, and find solutions for issues and challenges in health-care.

The symposium is organized into four program tracks

- **Consumer and Clinical Health-Care IT**
- **Health-Care Environments**
- **Medical and Drug-Delivery Devices**
- **Patient Safety Research and Initiatives**

Stay ahead! Be a part of cutting-edge presentations, interactive posters, and workshops on emerging issues in health-care human factors and the challenges facing us in the near future.
